

SBIOA SENIOR SECONDARY SCHOOL TRICHY-07

CLASS: 2

MATHEMATICS

DATE: 09.06.2020

NAME: \_\_\_\_\_

DAY: TUESDAY

**ADDITION OF 3 NUMBERS**

To add three numbers , add any two numbers first. Then add the third number to their sum.

Ex:    T    O

$$\begin{array}{r}
 4 \\
 + 2 \\
 \hline
 3
 \end{array}
 + 3$$
  

$$\begin{array}{r}
 9 \\
 \hline
 9
 \end{array}$$

Ex:            T        O

1	
3	4
+	6
2	0
6	0

We can add three numbers by writing them under each other. This is not any more difficult than adding two numbers.

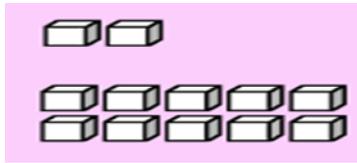

On the right, first add the ones.  $2 + 7 + 5 = 14$ . You get a new ten. So, regroup and write that new ten with the other tens.

In the tens, add  $1 + 3 + 2 + 1 = 7$ .

	T	O
	1	
+	3	2
	2	7
	1	5
	7	4

## GROUPING OF TENS AND ONES

We know that

=

10 Ones

=

1 Ten

Ones can be grouped as :

12 ones

=

1 tens 2 ones

T	O
	12

T	O
1	2

Similarly

a) 37 ones = 3 tens 7 ones

b) 50 ones = 5 tens 0 ones

c) 5 tens + 12 ones = 6 tens + 2 ones (  $5 \times 10 + 12 \times 1 = 50 + 12 = 62$  )

d) 7 tens + 11 ones = 8 tens + 1 ones (  $8 \times 10 + 1 \times 1 = 80 + 1 = 81$  )
